

YEAR 11 GEOGRAPHY REVISION TIMETABLE 2020

Chunking your Geography Revision

If you spend 15 minutes a day on geography, you can revise all topics before the exams. RAG rate after completion

Revision Materials

Use your revision guides and exercise books. Relevant information can be found on our adageogjoe website. Condense your knowledge down to the essentials.

Colour Code

- Paper 1 Topics
- Paper 2 Topics
- Fieldwork
- Days Off
- Holidays

	MON	TUES	WED	THURS	FRI	SAT	SUN	MON	TUES	WED	THURS	FRI	SAT	SUN
JAN	6	7	8	9	10	11	12	13	14	15	16	17		19
	20	21	22	23	24	25	26	27	28 Explain how climate change is caused by natural and human factors.	29 Give three environmental impacts of commercial fishing	30 What is the global atmospheric circulation model and how does it affect the distribution of ecosystems?	31 Explain the consequences of a heatwave on the UK	1	2 Describe the distribution of earthquakes and volcanoes
FEB	3 Explain the evidence for climate change	4 What is the difference between a shield and composite volcano?	5 Explain the importance of Rio at a local, national and global scale	6 Describe the impacts of primary and secondary effects of a tectonic hazard.	7 Describe one social impact of climate change on the world and the UK	8	9 Explain the causes of the development gap	10 Explain the social, economic and environmental consequences of climate change on the world	11 Describe the processes that occur in rivers.	12 Define world city and megacity and give named examples	13 Give four ways that human activities increase the concentration of greenhouse gases in the atmosphere.	14 Give three examples of economic hubs in the UK. What's the distribution pattern across the UK?	15	16 Describe and explain the global patterns of Urban change
	17 Explain the processes occurring at a constructive plate boundary.	18 Describe and explain the four types of weathering and erosion	19 Define an economic hub and explain where they locate in the UK	20 Explain mitigation and how it can be used for earthquakes	21 Describe the DTM and explain the links with development.	22	23 OWN CHOICE	24 Define food security	25 Explain how a meander is formed	26 Explain the consequences of urban growth on LIDCs.	27 Explain why people live in areas with tectonic hazards	28 List as many field work techniques as you can. What are the advantages and disadvantages of these?	29	1 Explain how technological developments can reduce the impacts of tectonic hazards.
MAR	2 Explain the processes that operate on the coast.	3 Explain how fluvial (river) landforms result from erosional processes	4 Describe the global distribution of urbanisation and explain why it occurs.	5 Describe the effects of and responses to a tectonic hazard you have studied	6 Give two characteristics of a world city	7	8 OWN CHOICE	9 What is eccentricity, obliquity and precession?	10 Explain how landforms of deposition are created on the coast.	11 Compare and contrast Malthus and Boserup theories. Which 'F-S' do they relate to?	12 Tropical Storms – where do they form? Why do they form? What are the features? How does climate change influence tropical storms?	13 For one physical factor, describe how it can affect development	14	15 Name two media products that the UK exports How valuable are these to the UK?
	16 Explain how development can be measured.	17 Describe the effects of, responses to a named tropical storm.	18 What is Zambia's main raw material? Why might this be a problem for Zambia?	19 Describe the 4 plate boundary types and name the hazards that occur at each one	20 Explain a hotspot volcano	21	22 OWN CHOICE	23 Explain how landforms of erosion are created on the coast.	24 Describe the distribution of the 6 main biomes (global scale ecosystems).	25 Where are most ACs found?	26 Explain the formation of a spit	27 Give three characteristics of upland and lowland areas of the UK	28	29 Explain how physical factors have caused the development gap.

	30	31	1	2	3	4	5	6	7	8	9	10	11	12
APR	List as many data presentation techniques as you can. What are the advantages and disadvantages of these?	Describe how a V shaped valley is formed	Explain how the shape of the river valley changes downstream	Explain the types of aid and evaluate their success in reducing the development gap	Evaluate how reliable your conclusions are in both fieldworks.		Describe the impacts of migration on the growth and character of an area of Rio	For a river basin you have studied describe how geology has influenced the landscape	Explain how your results can be improved in both your fieldwork studies	Give two abiotic features of an ecosystem	Explain why deforestation is occurring in the rainforests, the impacts and solutions.	Explain the reasons for increasing consumption, factors can affect food supply and impacts of food insecurity.		What causes an earthquake to occur?
	13	14	15	16	17	18	19	20	21	22	23	24	25	26
May	Explain why volcanoes and earthquakes occur at plate boundaries (with a named example).	Evaluate the different measures of development.	Describe the climate of a tropical rainforest	Describe the global impacts of climate change.	Explain how the DTM and population pyramids can show the level of development of a country.		Compare the effects of and responses to a tectonic hazard in an LIDC	Explain the causes of uneven development.	Give one example of interdependence in either the Arctic or Antarctica environment	Evaluate the strategies of sustainable management of a TRF.	Explain the consequences of uneven development	What is the difference between the greenhouse effect and the enhanced greenhouse effect?		Evaluate the effects of TNCs on an LIDC
	27	28	29	30	1	2	3	4	5	6	7	8	9	10
	Define urbanisation, counterurbanisation and suburbanisation	Explain the difference between El Nino and La Nina	Describe the characteristics of a polar ecosystem .	Explain how the coastal management at Lyme Regis reduces coastal processes.	Give one factor, other than migration, that causes urbanisation		Describe and explain the distribution of tropical storms.	Define a landscape What are natural and manmade landscapes? PHWLT = ?	Explain the GCS and why we have deserts at 30 degrees N and S	Where on Rostow's model is Zambia? Give reasons for your decisions	Give 3 examples of organisations that the UK is a member of	Explain the effects of an ageing population on the UK		Explain how mining can affect a named ecosystem ecosystem
11	12	13	14	15	16	17	18	19	20	21	22	23	24	
Describe how international migration has affected the growth and character of the city of Birmingham	Outline one initiative that is making the city more sustainable (Rio and Birmingham)	Explain the characteristics of the Arctic and Antarctica	Describe the supply, demand and consumption of water in the UK – areas of deficit and surplus/water transfer schemes/ reservoirs/ leak management	Evaluate the management strategies that protect the coast,		Explain how the coast is shaped through physical processes.	Paper 1	Describe two of the Millennium Development Goals – how well did Zambia do on these?	Identify problems associated with data collection methods and identify the limitations of data collect for human fieldwork.	Give two ways in which media exports may have influenced people in other countries	Explain how political factors have affected development in Zambia		Briefly describe how the economy of the UK has changed between 2001 and now	
25	26	27	28	29	30	1	2	3	4	5	6	7	8	
Evaluate top down and bottom up aid schemes/development projects in a named LIDC (Zambia)	Revisit Urban Futures	Revisit UK in the 21st century	Revisit Resource Reliance	Describe, explain, adapt and justify data presentation methods for human fieldwork		Revisit Dynamic Development	Geo-lingo and command word blitz	Paper 2	Prep for Paper 3	Prep for Paper 3	Prep for Paper 3		Prep for Paper 3	
9	10	11												
Prep for Paper 3	Prep for Paper 3	Paper 3												

TOP TIPS 	Retrieval Practice Create your own quizzes based on topics. Create them, test yourself or get someone to test you, it works!	Deliberate Practice Apply your knowledge. Revise it, practice exam questions and then go over using your notes, adding or redrafting.	Flashcards Create questions on one side and answers on the other side. Colour code specific topics and quiz yourself.	Answer Planning Practice planning exam question answers. Bullet point, speed plan and draft key paragraphs for exam questions	Graphic Organisers/Revision Clocks Transform the information into visual revision to create links, identify causes, impacts and response and evaluate their importance.
