

Preparing for the Dynamic Development Exam – Open Book research to test current areas of strength and areas for development

1. Countries can be classified into 3 groups. Name each group and match the following examples [3] *Stuck? p182-p184 or Ex Bks*

Group	Example
	Japan
	Brazil
	Ethiopia

2a. Odd one out from the following list: trade balance, GNI, % employed in tertiary industries, life expectancy [1] *Stuck? p184 or Ex Bks*

2b. How does your chosen indicator help to show how developed a country is? [2]

2c. What ‘type’ of indicator is your chosen odd one out’ [1]

3a. Read the following definitions then decide which one is describing ‘absolute poverty’ and which one is describing ‘relative poverty’ [2]

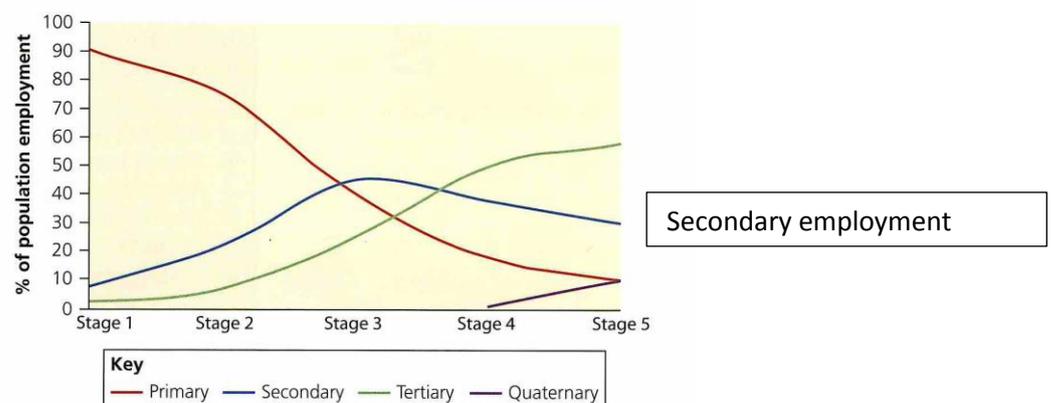

People lack the minimum income to maintain the standard of living of the average citizen in their country = absolute or relative?

People are deprived of basic human needs like access to food, water and sanitation = absolute or relative?

3b. What do geographers mean when they use the term development? [3] *Stuck? p180 or Ex Bks*

4. Study the employment graph shown below. *Stuck? p228*

a) Describe the trend for secondary (manufacturing) employment [3]

▲ **Figure 9:** Employment structure changes over time compared with the Rostow model (see pages 184–185)

5a. List THREE physical factors that can affect a country’s level of development [3] *Stuck? p188-202 or Ex Bks*

5b. Explain how these physical factors can affect how developed a country can become [3] *Stuck? p188-202 or Ex Bks*

5c. Explain how disease (a human factor) might affect a country's development. [4] *Stuck? p188-202 or Ex Bks*

6a. What is debt? [1] *Stuck? p193 or Ex Bks*

6b. Why are some countries in debt? [2]

6c. An LIDC wants to develop. It has two options to choose from – trade and borrowing money. Discuss the disadvantages of each strategy [6] *Own ideas/notes*

7a. What is a TNC? [1] *Stuck? p206-207*

7b. Name ONE TNC [1]

7c. Where do they locate their business operations and why? [4]

7d. Evaluate the impact of a transnational company on a named location (include advantages and disadvantages for the country it is operating in) [6]

8. A student is comparing two variables, GNI and life expectancy. *Stuck? p186 or Ex Bks*

a. What sort of graph would he/she draw? [1]

b. What sort of correlation might he/she expect to find? [1]

c. What 'a' or 'o' word might be used to describe 'exceptions to the rule'? [2]

9a. Zambia is an example of an LIDC – locate it [2] *Stuck? p196 or Ex Bks*

9b. Which stage of Rostow's Model has it reached? [1] *Stuck? p198-p199 read & think*

10. Define the following key terms a) import b) export [2]

11. 'The most sustainable way for an LIDC to develop is through a top down approach'. To what extent do you agree with this statement? [12]  [3]

Stuck? Read pages p210-p213
